INTERNATIONAL LOGO
COMPETITION

INTERNATIONAL LOGO COMPETITION THE LOGOS VOTING PROCESS

The project started in February 2025.

As part of the project, students from the three project partners - Italy, Sweden and Slovakia - were actively involved in the creation of the project logo. Each country's students proposed 15 visual logos, reflecting the project's main values and objectives.

The resulting logos became part of an International Competition organised using the online platform "Mentimeter". Thanks to its generated QR-codes and shared links, young people had the opportunity to choose their preferred logo directly from their mobile phones.

The Logo Competition was divided in two phases: in a first step, a top three winners was selected for each country. In a second phase, the total of the nine winning logos advanced to the Final Poll to determine the overall winner.

In total, participants in the logos voting process were 90 students between 15 and 17 years old from Italy, Sweden and Slovakia.

Italian students, in particular, were informed and involved during diverse dissemination activities and educational meetings held in English.
